

VISION REQUIREMENTS

Near distance vision: You must have visual acuity in at least one eye capable of reading the Jaeger J1 test chart, or equivalent, at a distance of not less than 30 cm (12 in.)

Color vision: You must be able to differentiate between the colors used in the NDT method(s) for which certification is required.

Vision examinations shall be administered by a physician, licensed nurse, ophthalmologist or optometrist, or by personnel approved by the employer's Level III. The visual examination date must be within 12 months of the date this application is signed.

*** Other forms containing the same information may also be used. ***
